1 Introduction

This annual Corporate Governance Report for Roblon A/S forms part of the management's review as set out in the annual report for 2022/23 and covers the reporting period 1 November 2022 to 31 October 2023. The report comprises:

- a description of Roblon's management structure;
- a description of the main features of the Roblon Group's reporting process and internal controls; and
- an account of the Company's approach to the Recommendations on Corporate Governance issued by the Danish Committee on Corporate Governance.

2 Management structure

Roblon has a two-tier management structure with a non-executive board of directors and an executive management board, which are independent of each other.

The Board of Directors takes care of the company's overall management and makes decisions about the strategic development, financial forecasts, risk conditions, the purchase and sale of companies as well as major development and investment projects. In addition, the board determines the terms of employment and salary of the executive board.

The Executive Management is appointed by the board and is responsible for the company's day-to-day management, including operational development, results and internal development. The management is responsible for implementing the strategy and the overall decisions approved by the board.

2.1 Board of Directors

The Board of Directors has six members. Four board members are elected by the general meeting for terms of one year and are eligible for re-election.

The external board members are elected by the shareholders for terms of one year at the annual general meeting. At the first board meeting after the annual general meeting, the Board of Directors elects a chairman as well as chairmen and members of the board committees.

At the annual general meeting in January 2023, the following board members were elected:

- Jørgen Kjær Jacobsen, independent member (Chairman since 2014)
- Ole Lønsmann Andersen, dependent member (Deputy Chairman since 2018)
- Peter Sloth Vagner Karlsen, independent member (member since 2011)
- Randi Toftlund Pedersen, independent member (member since 2016)

The Board of Directors also comprises a number of employee representatives equal to half of the number of board members elected by the shareholders, i.e. currently two. Employee representatives are elected for terms of four years, and in 2023 the following members were elected:

- Anita Skovgaard Pedersen, Key Account Assistant (member since 2023)
- Anette Frost Hansen, Sales Supporter (member since 2023)

A presentation of the members of the Board of Directors, including background information, board meeting attendance, etc. is set out in Appendix 1.

Annual evaluation of the Board of Directors

Roblon's Board of Directors must constantly ensure that its members have sufficient general knowledge, professional competence and experience to be able to understand Roblon's activities and business model.

As a basis for this, the Governance, Nomination and Remuneration Committee annually assesses which competency profiles should be present in the Board of Directors in order to be able to complement each other in such a way that as many relevant competencies as possible are made available for the board's work.

This assessment also forms the basis for an annual evaluation of the entire board, which is carried out under the leadership of the chairman of the board.

Every 3 years, the evaluation is also carried out by an external consultant, no later than autumn 2022. The evaluation took place with the participation and contribution of the entire board and management and was carried out by means of an online questionnaire and follow-up telephone interviews.

Both this year's evaluation and the assessment from 2022 conclude that the board's overall profile is deemed to correspond to the group's needs, with professional competences in management of listed companies, development and innovation, production, sales and marketing as well as finance.

The evaluation took place with the participation and contribution of the entire board and management and was carried out by means of an online questionnaire and follow-up telephone interviews.

Both this year's evaluation and the assessment from 2022 conclude that the board's overall profile is deemed to correspond to the group's needs, with professional competences in management of listed companies, development and innovation, production, sales and marketing as well as finance.

Tasks and responsibilities of the Board of Directors

Rules of procedure have been prepared for the Board of Directors of Roblon. These rules of procedure are updated annually by the Board of Directors. Among other things, the rules of procedure include an annual cycle of planned subjects, guidelines for the Board of Directors in relation to the Executive Management and the tasks and duties of the Chairman, Deputy Chairman and committee chairmen.

A minimum of six ordinary board meetings are held each year, four of which are scheduled around the consideration and approval of the Company's quarterly reports.

In 2022/23, 6 meetings were held with an attendance rate of 94%.

2.2 Board committees

In 2022/23, the Board of Directors had three committees.

- A Governance, nomination and remuneration committee, whose tasks primarily include preparing a statutory report on corporate governance, remuneration policy and report, initiates board evaluations and keeps the board updated on other relevant governance issues.
- An Audit Committee, whose tasks primarily include monitoring the group's risk management, preparation of financial statements, financial reporting and internal controls, selection of the auditor, as well as monitoring and communication with the auditor elected by the general meeting.
- An Innovation and Product Development Committee, whose tasks primarily include securing the strategic direction for long-term product and technology development, as well as overseeing the executive board's and the development function's review of the idea and development portfolio in relation to the level of innovation, customer value and business potential.

Audit committee

The Audit Committee has two members:

- Randi Toftlund Pedersen (chairman), independent member
- Jørgen Kjær Jacobsen, independent member

The Audit Committee assists the Board in:

- monitoring and reporting on the results of the statutory audit, including the financial reporting process;
- monitoring the financial reporting process and any recommendations or proposals to preserve integrity;
- monitoring the efficiency of the internal control system, assessing the need for an internal audit function and the effectiveness of the Company's risk management systems for financial reporting purposes;
- monitoring the statutory audit of the financial statements, etc., taking into account the result of the most recent quality control of the auditors appointed in general meeting;
- controlling and monitoring the independence of the auditors in relation to scope and services provided;
- performing the evaluation of the auditor elected by the general meeting and selecting and recommending the auditor to the Board of Directors; and
- supervising the scope of the non-audit services performed by the auditors appointed in general meeting.

The Audit Committee holds five to ten meetings annually. In 2022/23, the Committee held seven meetings, all attended by both committee members.

Governance, Nomination and Remuneration Committee

The Governance, Nomination and Remuneration Committee has two members:

- Ole Lønsmann Andersen (chairman), dependent member;
- Jørgen Kjær Jacobsen, independent member

The Committee assists the Board of Directors in, among other things:

- Prepare a statutory report on corporate governance.
- Keep the Board informed about changes and developments within the Committee's area of responsibility.
- Prepare and recommend remuneration policy for the Board of Directors and the Executive Management for adoption at the annual general meeting.
- Assist in the preparation of the remuneration report, which must be presented for adoption at the general meeting.
- Initiate evaluations of the Board of Directors.

The terms of reference of the Governance, Nomination and Remuneration Committee comprise a full list of the Committee's tasks.

The Governance, Nomination and Remuneration Committee holds two to four meetings annually. In 2022/23, the Committee held three meetings, all attended by both committee members.

Innovation and Product Development Committee

The Innovation and Product Development Committee has three members:

- Peter Sloth Vagner Karlsen (chairman), independent member
- Jørgen Kjær Jacobsen, independent member
- Marie Krogsgaard, research scientist Novozymes, dependent member
-

The Committee's principal tasks are to:

- set the strategic direction of the Company's long-term product and technology development; and

- monitor Management's and the development function's review of the ideas and development portfolio in terms of level of innovation, value to customers and commercial potential.

The Innovation and Product Development Committee holds four to six meetings annually. In 2022/23, the Committee held four meetings with an attendance rate of 88%..

2.3 Executive Management

The Executive Management reports to the Board of Directors and is responsible for the Group's operations, including all operational matters, organisation, resource distribution, defining and implementing strategies and policies, setting targets and direction and ensuring timely reporting and information to the Board of Directors.

The rules of procedure for Roblon's Executive Management are updated annually by the Board of Directors. The Executive Management holds meetings at least once a month. At the end of October 2021, the Executive Management had three members:

- Lars Østergaard, Managing Director and Chief Executive Officer (CEO)
- Carsten Michno, Chief Financial Officer (CFO)
- Kim Müller, Chief Technology Officer (CTO)

A presentation of the members of the Board of Directors, including background information, etc. is set out in Appendix 2.

3 Financial reporting process and internal controls

The Board of Directors and the Executive Management share primary responsibility for Roblon's risk management and internal control systems, including compliance with applicable legislation and other financial reporting standards. Roblon's risk management and internal control systems in relation to financial reporting, including IT and tax, are organised with a view to limiting the risk of financial reporting errors and omissions.

3.1 Internal control environment

Roblon's internal controls are based on the Group's organisation, decision-making processes, powers and responsibilities, which are set out in and communicated via company policies, internal guidelines, codes of conduct, etc. Internal controls are also performed on the basis of procedures described in manuals and memoranda. The Executive Management has set up centralised functions responsible for compliance and control to ensure that Roblon complies with applicable legislation and other financial reporting requirements and for controlling the financial reporting of subsidiaries. One of the duties of Roblon's Audit Committee is to evaluate and discuss important accounting and financial reporting issues.

Risk Assessment

At least once annually, the Executive Management carries out an assessment of the Roblon Group's financial reporting risks, comprising:

- significant accounting estimates
- significant changes to accounting policies; and
- an assessment of the risk of fraud.

The aim of this risk assessment is to identify the financial reporting processes that are most likely to be subject to material misstatements. Based on the risk assessment, Roblon can focus on implementing measures to manage and mitigate risks in these processes.

The Audit Committee also discusses the risk assessment once annually.

3.2 Control activities

Controls are planned and performed within the framework of an organisation with clearly defined roles that each provide effective support and, with respect to internal controls, allocation of responsibilities. They are backed up by specific control activities designed to identify and prevent financial reporting errors. These control

activities are based on an assessment of materiality and risk. The objective of the control activities is to ensure that goals, policies, manuals, procedures, etc. communicated by Management are observed and that potential errors, discrepancies and omissions are prevented or detected and corrected on a timely basis. Control activities include, for example, manual and physical controls, general IT controls and automated application controls of IT systems.

Management has established consolidated financial reporting procedures that include budget reporting and monthly reporting. The regular reporting comprises income statement, balance sheet and statement of cash flows as well as notes to the financial statements and other information.

The Audit Committee has assessed the need for an internal audit function and determined that this is not required, as the existing internal controls and risk assessment and processes are deemed to be satisfactory. The size and complexity of the Company was also factored into this decision.

3.3 Monitoring

The risk assessment process and control activities are monitored on an ongoing basis. The monitoring consists of formal as well as informal procedures applied by Management and process owners, risk and control procedures, including controls of results compared to budgets and estimates and significant key figures and financial matters. The Executive Management regularly monitors compliance with applicable legislation and other financial reporting requirements and reports its findings to the Board of Directors and, if relevant, to the Audit Committee.

At least once a year, the Board of Directors considers the adequacy of the internal control systems. The Board discusses the internal control systems with the external auditors elected by the shareholders at the board meeting at which the Group's annual report is considered. On the basis of the long-form audit report prepared by the auditors, the Board of Directors and the auditors discuss the results of the audit, including significant accounting estimates and the adequacy of the accounting policies.

The Board of Directors and the auditors monitor what actions the Executive Management takes to handle any control weaknesses and/or inadequate controls and ensures that any agreed measures to strengthen risk management and internal control are implemented as planned.
